Plant & Food Research

At Plant & Food Research, we believe science can create a better future. By finding smarter, greener options today, we're helping secure the world we want to live in tomorrow. With our partners, we use world-leading science to improve the way they grow, fish, harvest, prepare and share food. Every day, we have 1000 people working across Aotearoa New Zealand and the world to help deliver healthy foods from the world's most sustainable systems.
