Exhibitor

IMCD NZ Ltd

We are the leading distributors of speciality raw materials, food Ingredients and processing aids in Australia and New Zealand and have been distributing chemicals since 1897 to the following broad markets: filtration, food, performance products, petrochemicals, plastics, rubber and surface coatings.

We provide value added services that include Waste management and Blending and Repacking. Products are sourced from reputable international chemical suppliers and many items are held in inventory to provide a quality service for your needs.

By integrating our broad range of products and services with our technical expertise, we customise a competitive package to meet our customers' specific needs. Utilising our importing, logistical and IT capabilities, we lower total costs and add value to the chemical supply chain.
